

INTERNAL GROOVE BORE GAGE

- Measure diameter of internal grooves (width of groove > 3mm)
- Anvil is needed
- Optional accessory:
 - 0.001mm graduation dial indicators
 - Setting ring (code 6312)

(mm)								
Code	Range	Retraction of anvil	Measuring depth H	Accuracy (without dial indicator)	Repeatability (without dial indicator)	ØR	L1	L2
2433-120	60-120mm	8.5	180	2µm	1µm	10	105	215
2433-180	120-180mm	23	230	2µm	1µm	12	108	285
2433-300	180-300mm	30	230	2µm	1µm	18	130	285

ANVIL(OPTIONAL)

Code	Remark
2433-P□□□□	We design and make anvils according to the grooves to be measured.*

* Note: please provide the dimension of grooves to be measured.
